# TASKalfa Pro 15000c

Superfast inkjet production printer

# A revolution in high-speed printing:

Our TASKalfa Pro 15000c brings together more than 60 years of digital expertise and experience to meet your high-volume printing needs. This superfast inkjet production printer offers you a cost-efficient alternative to conventional printing in transactional, trans-promotional and direct mail applications. Built for speed and reliability, it features unique print head and ink technologies developed by Kyocera. It was designed to secure the future of your business by enhancing your reputation and providing fast, sustained return on your investment.

## Fast, high-quality output to enhance your image

---

TASKalfa Pro 15000c print and copy outputs are among the fastest in the market (150 ppm for A4), with no speed reduction on heavy media stock. With additional high capacity stackers and vacuum paper feeders, paper output can reach 14,310 sheets. A print resolution of 600 x 600 dpi ensures stable image quality, while accurate front to back registration delivers consistent image positioning on every page.

- Large-capacity vacuum feed trays enable reliable transport of your media.
- The robust, durable design ensures reliable performance in demanding environments.
- High-quality components include Kyocera's own time-proven inkjet head.

## Reliable throughput with lower costs

---

From healthcare and education to finance, marketing, postal services and government departments, the TASKalfa Pro 15000c expertly handles high volumes and critical processes. It enables secure, predictable workflows in a wide range of environments. Quick, reliable performance is combined with sector-leading energy efficiency to keep your costs down while reducing the carbon footprint of your business.

- The TASKalfa Pro 15000c holds numerous international energy certifications.
- Remote servicing and preventive maintenance optimise uptime.

## Efficient input for new heights in productivity

The TASKalfa Pro 15000c was developed for high-volume printing with exceptional turnaround time. The Fiery controller manages the print queue efficiently and Managed Enterprise Output (MEO) software takes care of more complex workflows.

- Operation is simple with an intuitive touch-panel interface.
- Most maintenance and fine adjustment can be done by the user.
